Programming Fundamental
Assignment #02
GitHub & Git bash

A note of warning: Start work on assignments as soon as they are given. Do not underestimate the demanding nature of this course. Expect the system to crash the night before your program is due. Aim to have it done the day before.

Submit the assignment on **slate**. Do not email me assignments after due date. It will not be accepted in any case. Students are required to submit actual content written in MS word or Pdf. Hand written/ Scanned assignments will not be accepted.

1. Install gitbash on your PCs/laptops
2. Make github account
3. Paste the following screenshots in your assignment
    a. Creating a repo on github
    b. Cloning a git repo on local computer
    c. Make new file using command line
    d. Add file to git repo
    e. Commit file to git repo
    f. Push repo back to github
    g. Git repo current status on github

Note: Name of the file should start with your Roll number followed by your Name and at the end assignment number
For Example: P180002 name assign#02
